For Immediate Release

2011 Event to be Tethered in the Windy City

Dallas, TX, November 18, 2009 CONSTRUCT has announced the dates and venue for the 2011 event. In conjunction with the 55th CSI Annual Convention, CONSTRUCT2011 will be held September 14-16, 2011 at McCormick Place's Lakeside Center in Chicago, IL. Tom Cindric, Director, Hanley Wood Exhibitions, states, "In surveying attendees, exhibitors and CSI members, Chicago is consistently rated as a top convention city. And, with the move to fall, we have opportunities to build a larger show, a stronger CSI event, eliminate industry overlap and deliver higher value to them."

Producing the event in the "windy city" offers a large demographic population from which to draw. According to the Chicago Visitors and Convention Bureau, more than 8.5 million people live in the metropolitan area and more people travel there for overnight business trips than any other destination in the country. "We look forward to Chicago. It's centrally located, easy to access, non-stop, from across the U.S., offers world-class amenities and business opportunities that support a successful event," Jayne Dalton, Show Manager, notes, "and McCormick Place is just minutes from downtown."

The Exhibits will span three days, September 14-16, and the Education will be offered over four days, September 13-16, 2011. This key industry event encompasses the planning, design, engineering, specifying, construction, renovation and operation within the commercial building industry. CONSTRUCT offers the latest products and solutions to architects, engineers, facility managers/owners, specifiers, designers, general contractors and non-residential building professionals. CONSTRUCT2011 will offer a uniquely designed accredited education program, expanded networking, special activities, a full exhibit hall floor and CSI member events which will attract attendees from across the country. For additional event information, visit www.CONSTRUCTshow.com.

About Hanley Wood

Hanley Wood, LLC is the premier media company serving housing and construction. Through four operating divisions, the company produces award-winning magazines and Web sites, marquee trade shows and events, rich data and custom marketing solutions. The company also is North America's leading publisher of home plans. Hanley Wood Exhibitions [Dallas] conducts events serving the industry's strongest market segments, including World of Concrete, one of the top 20 trade show events in the country.

Founded in 1976, Hanley Wood is one of the ten largest B-to-B media companies in the United States. Hanley Wood is owned by affiliates of JPMorgan Partners, which uses CCMP Capital Advisors to manage this investment.

About CSI

CSI is a national association of construction professionals who identify and document building product solutions. CSI creates industry standards and formats to improve construction documents and project delivery. The organization is unique in the industry in that its 14,000 members are a cross-section of specifiers, architects, engineers, contractors and building materials suppliers who are experts at identifying and documenting building product solutions. The organization has 146 chapters that enable members to communicate openly with their counterparts and exchange information for successful projects.

CSI is renowned in the industry for its rigorous certification programs for professionals seeking to improve their knowledge of accurate and concise construction documents. CSI provides continuing education, professional conferences and product shows. For more information, visit www.csinet.org, or call 800.689.2900.
