Construct2008 Just Around the Corner...June 3-6th in Las Vegas

Wow sometimes things are happening so fast I miss something big...and this is BIG!
Architects, specifiers, Contractors, Facility managers and many more come see all the big boys at the show...and the big boys are the only ones here at this one that I see.
Dex-O-Tex, Pac-Poly, Mer-Kote, Tremco, Polycoat, WR Meadows, DuraDek and Lonseal have come to play, stepping up with the big fees that it takes to get an exhibit space-\$3,000 for space alone! on a 10' x 10' booth, and looking at the floor plan, some of these guys have stepped up to a whole level beyond that.
Why? Because these guys and gals attending are the money baby! They'll be the ones who see these companies here, and start specifying and using their products...instead of those products that aren't represented here.
If your in the trades, you should be there too.
